Wine Storage

Sophistication For Your Home

Quality, Design and Innovation

LIEBHERR

Features of Liebherr Wine Cabinets

LED

LED lighting: The light in the wine cooling compartments can be dimmed to give a pleasing ambient light inside the appliance.

Presentation shelf: The practical shelf of the Vinidor models fulfills both bottle storage and presentation functions. The bottles can be stored horizontally at the rear.

Activated charcoal filter: Liebherr wine cabinets have a permanent supply of odourless, fresh air via an easily exchangeable activated charcoal filter.

Integrated lock: Nicely concealed into the side of the door, this sturdy lock protects your fine wine collection.

Electronic LCD display: Intuitive navigation of touch electronic control system enables tailored storage options. The digital temperature display can be viewed via the UV tinted glass door.

Compressors: Specially developed compressors installed in the wine cabinets from Liebherr ensure that the wines are stored in a particularly low vibration environment.

The features shown are model dependent; the description applies to the relevant model.

1 To achieve the indicated energy consumption level, the wall spacers provided with the appliance must be used. These increase the appliance depth by approximately 3.5 cm. If the wall spacers are not used, the appliance will remain fully functional, but will have a slightly higher energy consumption level.
2 These models are only bound for storing wine. Maximum DIN norm bordeaux bottles capacity (0.75 l) as per norm NF H 35-124 (H: 300.5 mm, Ø 76.1 mm).
