PLATINUM SERIES

PLATINUM SERIES ELECTRIC MAINS PRESSURE SOLAR STORAGE

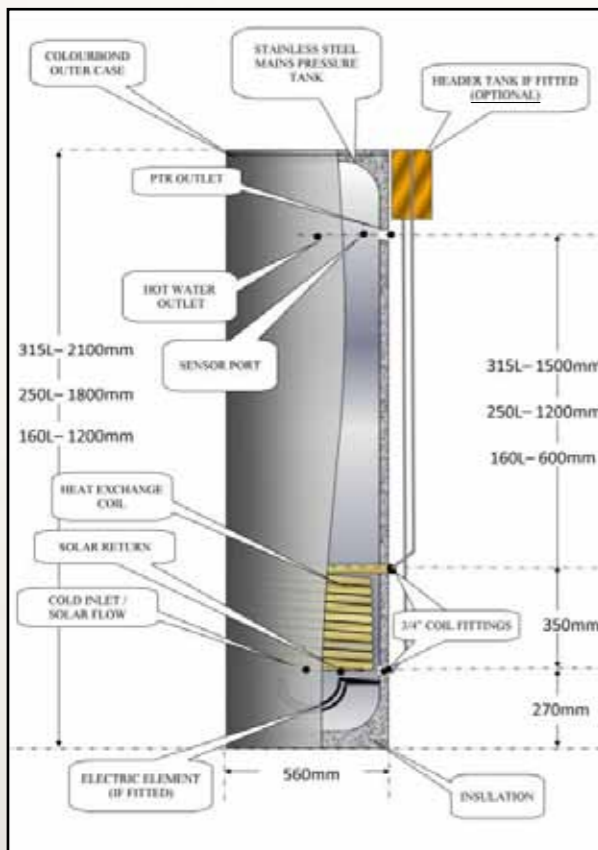

SPECIFICATIONS

MODEL	PS160	PS250	PS315
Capacity	180Lt	280Lt	334Lt
Rated Delivery	160Lt	250Lt	315Lt
Element	3.6kW	3.6kW - 4.8kW	3.6kW - 4.8kW
PTR Valve	700kPa	700kPa	700kPa
Max inlet pressure	500kPa	500kPa	500kPa
Solar compatible	Yes	Yes	Yes
Cylinder	Stainless Steel	Stainless Steel	Stainless Steel
Outer Casing	Colourbond	Colourbond	Colourbond

DIMENSIONS

Height	1200mm	1800mm	2100mm
Diameter	560mm	560mm	560mm
Fittings	3/4" BSP	3/4" BSP	3/4" BSP

CENTRA-COIL MAINS PRESSURE HOT WATER STORAGE

SPECIFICATIONS

MODEL	PS160 FC	PS250 FC	PS315 FC
Capacity	180Lt	280Lt	334Lt
Rated Delivery	160Lt	250Lt	315Lt
Element	3.6kW	3.6kW - 4.8kW	3.6kW - 4.8kW
PTR Valve	700kPa	700kPa	700kPa
Max inlet pressure	500kPa	500kPa	500kPa
Solar compatible	Yes	Yes	Yes
Stove / Hydronic Compatible	Yes	Yes	Yes
Cylinder	Stainless Steel	Stainless Steel	Stainless Steel
Heat Exchanger	Internal Coil	Internal Coil	Internal Coil
Outer Casing	Colourbond	Colourbond	Colourbond

DIMENSIONS

Height	1200mm	1800mm	2100mm
Diameter	560mm	560mm	560mm
Fittings	3/4" BSP	3/4" BSP	3/4" BSP

Another innovative **Wise Living** product - Developing Cost Effective Solution.

Completely Solar and Hydronic Compatible
**Your New Flexible Friend In
Hot Water Systems**

PLATINUM SERIES

Designed and manufactured with **you, the customer** in mind.

Most hot water producers are proud that their tanks are designed with the plumber in mind and although we also understand this is an important consideration our tanks are designed and built with our customer in mind, it's simple really - "hot shower - happy, cold shower - unhappy."

And if you're happy then so is your plumber.

PLATINUM SERIES & CENTRA-COIL TANKS

- Stainless steel for long life and flexibility.
- Able to heat to higher temperatures than vitreous enamel tanks.
- Multiple installation options.
- Modern stylish summer grey finish.
- 100% Australian owned and manufactured.
- 10 year conditional warranty.

A new innovative, reliable, long lasting, hot water storage system from the thoughtful people at **"Wise Living"**.

Designed to provide maximum solar contribution from Australian made & owned **"Wise Living"** flat plate solar thermal hot water collectors.

PLATINUM SERIES

VERSATILE "CENTRA-COIL" TANKS

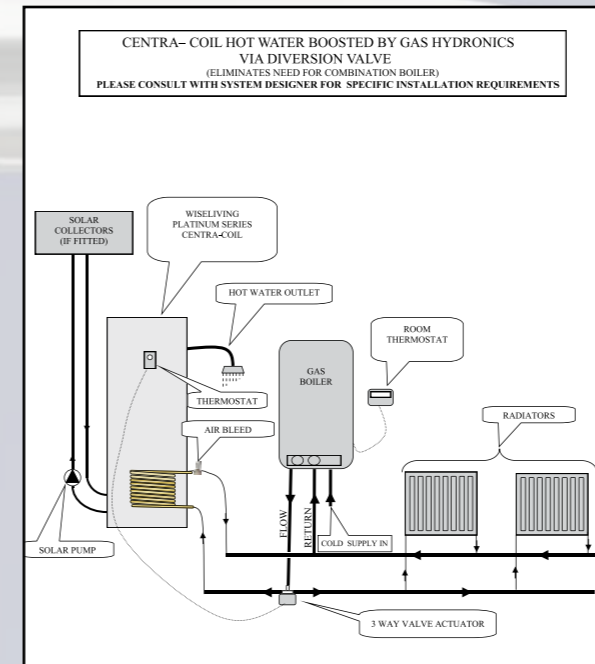

New style stainless steel mains pressure tanks suitable for gas boilers, wood stoves and boilers, heat pumps, all hydronics and / or solar options.

The centra-coil tank is an efficient combination with any solar thermal heat source. The applications are endless.

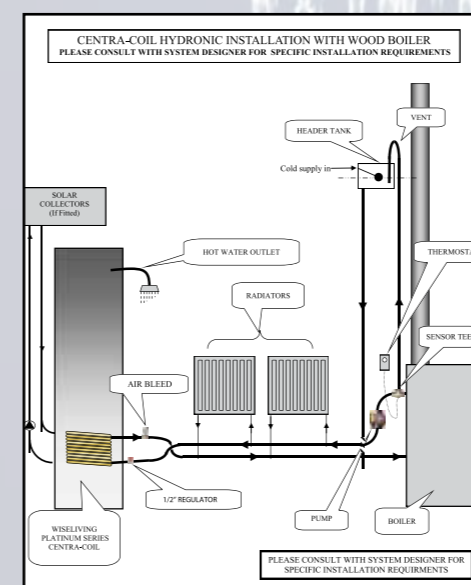

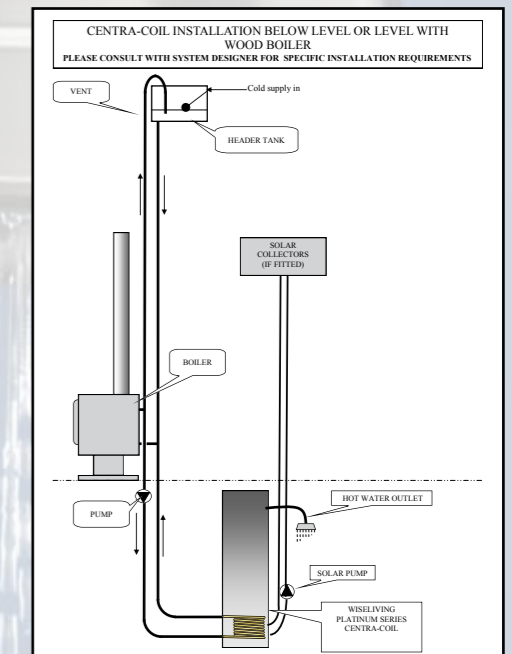

You can safely combine low pressure with high pressure, domestic potable water with frost protection or anticorrosion liquids used in heating systems.

Can be used on heat recovery systems to utilize waste heat in domestic and commercial application, with the option of additional internal heat exchanger suitable for many applications.

All tanks are available with an electronic booster element if required.

- **PS160** - small to medium load (3 to 5 people depending on heat source) quick recovery on gas central heating boiler (also wood boiler and solar compatible). Electric boost option.
- **PS250** - medium load (4 to 6 people depending on heat source) suitable for thermosiphoning or pump operated from wood stoves, wood and gas hydronic system and solar compatible. Electric boost option.
- **PS315** - large load (5 to 8 people depending on heat source) suitable for thermosiphoning or pump operated from wood stoves, wood and gas hydronic system and solar compatible. Electric boost option.

Combined with hydronic radiator or infloor heating systems, the centra-coil can be on a continuous heating cycle with the home heating or on a priority heating via a simple wise logic control system.

Cost effective, reliable, diverse application in one hot water tank.
