Traditional Craftsmanship for over 100 years

Shaws have been manufacturing fireclay sinks for over 100 years, using time honoured traditional methods and materials. Each handcrafted sink is an individual product, bearing testament to the craftsmen who produce them.

Shaws sinks demonstrate the natural characteristics of fireclay ceramics and are created by a 'slip casting' process at our factory in the Lancashire town of Darwen. A mixture of clay and water is poured by hand into a porous mould. When the newly formed sinks are dry enough, craftsmen remove them from their moulds before hand finishing the sinks through a process of sponging and 'fettling' to create a smooth finish.

Following a gradual drying period of up to 40 hours, the sinks are then prepared with a ground coat before being glazed. Firing in specially designed kilns at temperatures of up to 1200 degrees centigrade completes this rigorous process.

Whilst modern technology has improved manufacturing methods over the years, the principles of this handcrafted product remain the same. Having taken two to three weeks to craft, each sink is proudly stamped with the impression of its maker and bears its own distinctive badge. Traditional craftsmanship is as important now as it was in 1897.

Contents

9 *Original Collection*

Canterbury sink and tap the finest importers of high quality Tap ware from Italy. Nicolazzi tap ware further enhances the beauty of Shaws handcrafted sinks.

Handcrafted in Lancashire

Shaws Bowland sinks are a great choice for a traditional country kitchen design. They are durable in performance whilst beautiful to look at, thanks to their distinctive fluted front design.

Original Collection

Inspired design and superb craftsmanship are combined in the Shaws Original Collection to create both a traditional and elegant range of fireclay ceramic sinks.

The Collection contains an array of original designs and details, which are unique in fireclay ceramics. Designed to look and feel beautiful, whilst fitting perfectly in any traditional kitchen design.

Our heritage is reflected in the names we give our products today. These are carefully selected in tribute to the local communities and villages that make up our region and provide homes for our staff and their families.

As practical now as a century ago, a Shaws Original is a sink of substance, which will add warmth and personality to any kitchen.

SINK COLOUR OPTIONS

All Shaws sinks are available in white or biscuit.

Shaws Warranty & Installation

Shaws products carry a warranty against manufacturing defects. Please contact your retailer if you have any issues regarding the purchase of your Shaws sink or other products. As a Shaws sink is a handcrafted product, the dimensions may vary plus or minus 2%, this could also be caused due to shrinkage during the firing process. Shaws recommend that your kitchen fitter is aware of this and that no work surfaces or cabinets are cut before measuring your sink. Due to the handcrafted nature and weight of Shaws sinks, we recommend that a specialist kitchen fitter installs your sink and that the sink is properly supported.

Care & Maintenance

We recommend that your Shaws sink be cleaned using a soft sponge or cloth and a nonabrasive cleaning product. Soap and water will generally be sufficient. Shaws handcrafted sinks are manufactured with a durable glaze for years of beautiful performance. On the occasion that a metal pan or cutlery marks the surface of the sink, we recommend 'Astonish' cleaner to remove the mark. Undiluted chemicals such as bleach should not be used. While no ceramic sinks are impervious to damage, fireclay resists chips, scratches and stains better than other materials. In the rare instance of a chip, colour match repair kits are available, please see our website.

Shaws Handcrafted Sinks

All Shaws sinks have a one year guarantee against manufacturing defects and ten years for fading and staining.

Shaws Basket Strainers/wastes

Manufacturing defects are guaranteed for one year as are decorative finishes from date of purchase. Please do not use abrasive cleaning chemicals such as bleach. Shaws wastes are Watermark Certified.

The above warranties are upheld providing that the products have been used for normal domestic use only and excludes defect or injury caused by or resulting from misuse, abuse, neglect, accidental damage or improper installation. The five year guarantee does not apply to the replacement of products where damage is caused by normal wear and tear. Please contact your local retailer or showroom where you purchased your Shaws product for all warranty related claims.

Our Policy

Shaws operate a policy of continual improvement of our product range. Therefore we reserve the right to amend specifications and descriptions at any time without prior notice.
